

Health Support Specialist

The Health Support Specialist (HSS) Registered Apprenticeship Program from Leading Age Minnesota and Minnesota Department of Labor is just one more reason to expect exceptional care at The Birches at Trillium Woods Health Center.

WHY THE BIRCHES IS PARTICIPATING IN THE PROGRAM

Our aging population coupled with an aging workforce is fueling a demand for top talent in skilled nursing communities throughout the country. The HSS program offers an opportunity to attract, recruit, and train passionate nursing assistants to a career of service at The Birches.

Each apprentice completes 2,500 hours of supervised, on-the-job training and 9 credit hours of online elder care coursework. The curriculum includes: Meaningful Activities, Culinary Care, Environmental Services, Memory Care, Psychosocial Care, and Physiological Care.

HOW RESIDENTS WILL BENEFIT

Residents will benefit from an influx of passionate, eager-to-learn apprentices. We believe a career in senior living isn't just a job, it's a calling to provide uncompromising care to older adults. This program provides the extensive educational background and skills development needed to deliver the combination of competence and compassion we pride ourselves on at The Birches.

BETTER CARE THROUGH HEALTH SUPPORT SPECIALISTS

Residents benefit from the common characteristics of associates participating in the program:

- Underlying commitment and passion to serve older adults
- Continuing education and ongoing skills training
- Opportunities for career development and advancement
- Greater job satisfaction and dedication to serve
